## ANNUAL USE PLAN FOR THE ALAMO TOWNSHIP PARK YEAR 2023

### **I. Planned Activities for the Upcoming Year**

Our plan is to use the facilities identified in the Use Agreement between Alamo Township and Alamo Little League for Little League baseball and softball in much the same fashion as in past years. The active period of the Little League season will be from the middle of March 2023 to the end of July 2023. The League also plans to use the three buildings we have constructed over the years for storage of League equipment during and after the season.

We plan to be primarily responsible for the maintenance of the fields and other areas used exclusively for Little League activities. We will work with the Township Board on any additional maintenance and construction activities that may be necessary.

We pledge to work within the framework of the Use Agreement and will strive to be a good steward of the portion of the Township park that has been so generously made available for the use of the League.

We hope to assist the Township with an application for a Sparks Grant in 2023, some of which will impact Little League facilities, fields and parking.
